

UTS

UNIVERSITY
OF TECHNOLOGY
SYDNEY

Future focused

Connections that count

- Based in the heart of Sydney's creative and digital industries.
- Open doors to work placements, case-based projects, and real-life simulations.
- Industry sponsored competitions and opportunities to pitch to industry.

Launch your ideas

- Work on **your start-up business** through the UTS Start Ups mentoring program.
- Gain the skills required of tomorrow's workforce with the Creative Intelligence and Innovation degree, and Diploma in Innovation.

WHY Transdisciplinary Innovation ?

31%

of undergraduate students gain
employment within faculty
partner organisations

Graduate with real experience

- Complete an internship in the second or final year of your Bachelor of Creative Intelligence and Innovation (BCII) degree
- Work on real client briefs and live projects
- Over 600 industry partners, including Google, Honda and Westfield

National recognition

Received Australia's highest teaching award for innovative student learning experience

A collaborative approach

Work alongside students from a range of disciplinary backgrounds to solve real-world challenges

Transdisciplinary Innovation

Combine Creative
Intelligence and
Innovation with these
courses:

B Creative Intelligence and innovation –
See selection ranks →

Advanced Science – **93.40**

Animation – **93.75**

Fashion and Textiles – **98.85**

Forensic Science – **91.35**

Information Technology – **80.05**

Interior Architecture – **85.70**

Journalism – **82.50**

Laws – **96.60**

Management (Events) – **80.35**

Management (Sports Business) – **91.90**

Management (Tourism) – **80.00**

Sport and Exercise Science – **86.00**

Visual Communication – **90.50**

A man with dark hair, wearing a blue t-shirt and a black backpack, is holding a silver Apple laptop. He is looking upwards and to the right with a thoughtful expression. The background is a modern, brightly lit interior space with white railings and blue accents, possibly a library or a university building.

Structure of learning at UTS

85%

of Undergraduate students undertake internships (or similar experiences) as part of their course

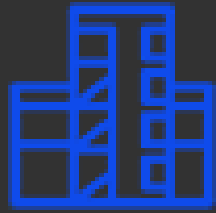

Learn more about what learning looks like at UTS:

<http://uts.ac/learningatUTS>

- **Hands-on, practice-based learning experiences** are key to our courses
- **Different forms of learning at UTS** – from lectures, tutorials and workshops
- **Lectures:** broad overview of the subject covering key major concepts
- **Tutorials:** apply the concepts in active learning situations
- Produce job-ready graduates through '**authentic assessments**' enabling students to show what they can 'do' with that they've learnt

Classes in 2021

On-campus classes:

- Reactivating campus: Face-to-face classes, labs, tutorials and studios
- Safety precautions: face masks, contact tracing, increased hygiene

Online classes

- Student **services and resources** are available at our [Supporting online study portal](#)
- Most UTS subjects are using **Zoom** for online classes.
- [Microsoft Teams](#) is a popular collaboration tool where students can **create online groups, chat with other students, and connect with audio or video calls.**
- An online service is available to give **instant feedback on academic writing.** [AcaWriter](#) is an artificial intelligence (AI) tool, developed here at UTS
- **More help with online study?** There is a list [strategies, systems and services for studying at home.](#)
